Death of an Officer.-Civil Engineer Benjamin F. Chandler, retired, U. S. Navy, died yesterday afternoon at Onset, Miss., (where he spent the past summer), of appo-plexy. He was born in Massachusetts in 1816, and entered the service July 7, 1852. He was retired October 15, 1881, with the rank of commander, and has since resided at Waverly, Mass., and latterly at New London. He leaves a widow and two sons.

The Attorney-General's Decision .-There had been no doubt among Treasury officials nor in banking circles that the At-torney-General would decide as he has done torney-concern would decide as he has done the question as to the obligation of banks to immediately replace called bonds. What-ever effect this ruling may have upon the course to be pursued by the banks had been fully expected and in the opinion of Treas-ury officials no new element is introduced by it into the financ'al situation.

He did not designate anybody to act as Secretary in his absence and is expected to return at once after depositing his ballot. Few Clerks Cone Home to Vote. In the State, War and Navy Departments of clerks and officials on leave of absence and it is not known that any clerks have gone home for the purposes of electioneer ing or to vote. In none of the depart ments, indeed, is much interest in the elections manifested, which is in striking con-trast to the general excitement that up to the incoming of the present Administra-tion universally prevailed on the eve of the Congressional contests. The clerks do not seem to know or care anything about it. They ask for no information, and, but for the fact that many of the bureau officers, nearly all of whom are Democrats, are ab-sent for the purpose of voting, no one would suspect that to-morrow differed from any other calendar day of the year.

THANKSGIVING DAY. The 25th Instant Set Apart for Prayer

and Gratitude The President has issued the following Thanksgiving proclamation:

ing Thanksgiving proclamation:

It has long been the custom of the people of the United States, on a day in each year especially set apart for that purpose by their Chief Executive, to acknowledge the goodness and mercy of God and to invoke his continued care and protection.

In observance of such custom, I. Grover Cleveland, President of the United States, do hereby designate and set apart Thursday, the 25th day of November instant, to be observed and kept as a day of thanksgiving and prayer.

be observed and kept as a day of thankagiving and prayer.

On that day let all our people forego their
accustomed employments and assemble in
their usual places of worship, to give thanks
to the Ruler of the Universe for our continued enjoyment of the blessings of free
government, for a renewal of business prosperity throughout our land, for the return
which has rewarded the labor of those who
till the soil, and for our progress as a people
in all that makes a nation great.

And while we contemplate the infinite
power of God in earthquake, flood and
storm, let the grateful hearts of those
who have been shielded from harm through
His mercy be turned in sympathy and
kundness toward those who have suffered
through His visitations.

through His visitations.

Let us also in the midst of our thanksgiving remember the poor and needly with
cheerful gifts and aims, so that our service may, by deeds of charity, be made acceptable in the sight of the Lord.

## MEN AND THINGS ABOUT TOWN.

The President was forced to look up at one of his callers to-day, for the latter, who towered a good head and shoulders above the crowd, declared that his height was seven feet and two inches. No one cared to dispute this assertion, especially as the raw-boned fellow who made it wore a bronze button in his button-hole which showed him to be a veteran of the late war.

showed bim to be a veteran of the late war. His tall form had scarcely passed out of the corridor ere a chubby pink-complexioned, boyish-looking visitor, not more then four and a half feet high, approached the President to shake hands. A smile would persist in creeping up the side of the President's face as he mentally contrasted the long and short of humanity that he had just reviewed, and when another incident gave him the opportunity the President indulged in a hearty laugh. A lady approached, holding by the hand a very pretty little girl, dressed Kate Greenaway fashion, and with a sash of knotted seal-brown and orange-colored ribbons. "This is a little girl from lows who wants to shake hands with the President of the United States," said the lady, and the little one pressed forward. "How do you do, miss?" remarked the President, as he smiled condially at his little visitor, who still held his outstretched hand. By way of reply, the little girl carried the President's hand to her lips and kissed it, a good smack resounding through the East Room, and, still looking back, the little one was led away.

"It would not surprise me in the least to see Peckham defeated," said a well-known New York Democrat in one of the uptown New York Democrat in one of the uptown Departments to-day, "and my reason for this is the belief that Tammany will kuife him. For the past ten years Judge Peckham has been regarded as the implacable foe of the organization over which the late John Kelly so long presided, and also as the mouthplece of the late Samuel J. Tilden. Now there is a chance for Tammany to get even with their old enemy, for it is asking too much for these men to be called upon almost at a minute's notice to support one who has been a life-long antagonist."

You see that district is safely Republican and in addition to that, Gaines, their candidate is very strong, and very popular. Then in the First district our candidate, Croxton, who is now in the House, may be defeated, though we hope to pull him through. In the Ninth district the situation is about the same. Arranging for the Next Race for the America's Cup.

TURF TOPICS DISCUSSED.

Gossip of the Diamond Field Some In

Already yachting circles are considerably interested in the discussion of next year's race for the America's cup. As has been stated a Mr. James Bell of Scotland has sent to the New York Yucht Club a challenge for a race, but is he fails to comply with certain remisites the challenge is looked upon s irregular. No sooner was the defeat of the Galatea telegraphed than Clyde or the Galatea telegraphed than Clyde yachting men set about considering what should be done. A renewal of the challenge was inevitable, and, with this fixed, challengers were not far to find. To build a faster boat than the Genesta or Galatea was the first con-sideration, and, while more than one Clyde yacht owner would have been deased to throw down the gauntlet and car the cost, it was considered a better course to associate several members of a yacht club and challenge the New York Yacht Club in the name of the associated members. Mr. James Bell, owner of the Amadine, had the honor of being selected as the nominee and challenger, and forthwith the Royal Clyde Club was applied to to se-cept the office of the challenging club. It was agreed that a cutter yacht should be built and constructed of steel. It was further agreed that a Ciyde cap tain and a Clyde crew should race the yacht, and it was also fixed that a Clyde designer should design the cut-ter, and that she should be built in a Clyde yard. Before the cutter starts New York her speed will be thor oughly tested.

Millie, the three-year-old filly, is the only animal now in the Dwyer Brothers' stable that is fit to race, and even she is a little weary. Millie has been as good as any three-year-old filly out this year. Pure Rye and Ada D. have fallen much behind all expectation, and were a loss to their stables. It is too late in the season now for such a contest, but if it were earlier in the year what would become of Mr. Baldwin's four if pitted against King Fox, Firenzi, Milton and Santa Rita, belonging to Mr. Haggin'
Mr. Barnes, owner of the Melbourne stable, will retire from the turf this year. He says he will not change his mind. He met with reverses on every track in the country, and his horses could but wouldn't win. There seemed to be a fatality about the stable. As soon as Boxz was sold by Mr. Barnes, he won a race and has been doing well ever since. Blue Wing has cost Mr. Barnes \$10,000. He ought to be put behind a coal eart. Nobody on the turk would miss him, and yet but a few months ago he was second choice for the Kentucky Derby.

Commissioner Wheatley stated to a Curric eporter to-day, concerning the occupation of the river front by the boat clubs, that they have been a little premature in their criticism of the Commissioners regarding the notices issued about the occupancy of river-front property. He says the Commissioners only want the hoat clubs who have regular leases to produce them, and those who have not leases from the Commissioners to apply for them. He says, also, that the Commissioners have the sole control of the river front under the recent decision, and permits and leases will have to emanate from them. Concerning the loat clubs, he says no notice has been issued to them to vacate, and he thinks they can remain by complying with the request of the Commissioners.

Commissioner Webb says that he does not think the boat houses will be disturbed, but that in the future the clubs will have to look to the Commissioner for permission to occur the lead.

There is no trouble in the other packing houses and there is no apprehension of violence. It is expected the strike will be of short-duration.

The dissatisfied butchers congregated this morning in the vicinity of Swift's and Morris' slaughter houses, but showed no desire to create trouble. There was a good deal of excitement, but the leaders in the strike declared that no net of theirs would lead to a that no net of theirs would lead to collision with the authorities.
